MICHIGAN OIL & GAS NEWS/Scott Bellinger

**ONE OF THE NEWEST WORKOVER RIGS** to be fielded in Michigan made its debut last week on the location of West Bay Exploration's Hoffman 2-1 well in Section 1 of Calhoun County's Marengo Township, T2S-R5W. Homer, Mich.-based McConnell & Scully, Inc.'s Rig 56 is a Wilson Model 42B, with a 102-foot mast and 250,000-pound capacity drawworks. In the photo above (from left to right): McConnell & Scully rig operator Don Taylor and supervisor Kevin Smith discuss strategies for completing the Hoffman 2-1 well with West Bay's Rick Slater and Kelli Douglass.
